

# Web Application Project

TVT24SPO Group 4:

- Janne Niemi
- Mikko Puolakka
- Sanna Tikkakoski
- Severi Viiri

# Roles

- No strict roles (e.g. project manager), everyone contributed
- Everyone had the chance to work on what interested them
- One task = one person, to avoid merge conflicts
- Functionality prioritized over style

# Successes

- Overall time management
- Task division
- Communication within group
- Effective version control

# Challenges

- New technologies
- App structure & UI planning
- Personal scheduling conflicts
- Version control planning

# Key Takeaways

- The importance of proper planning before execution
- Improved project management skills
- Version control insights
- Testing basics
